Manufacturing Process	Injection Moulded

Features
<p>Lengths slot together enabling quick and easy installation.</p> <p>Can be cut down in length with a clip detail repeated at 6 points along the length.</p> <p>Multiple rainwater exit points with easy cut outlets for use with standard 4" underground drain pipe.</p>

Description
<p>The Manthorpe SlotDrain is a discreet way of removing unwanted standing water from outside paved areas. Once installed, the only visible part of the drain is a 20mm wide slot. It is ideally suited to block paving coverings up to 50mm depth. It is suitable for both pedestrian and cyclist use on driveways, patios and paths around the home. It is especially well suited to part M building regulation thresholds. The product has been independently load tested and gained an A15 load rating.</p> <p>Other components are available to complete the system such as the SlotDrain Junction Unit and an Accessory Pack containing a Leaf Trap and Endcaps.</p>
